Correction

Correction to "Scene-Driven Multitask Parallel Attention Network for Building Extraction in High-Resolution Remote Sensing Images"

Haonan Guo, *Student Member, IEEE*, Qian Shi, *Senior Member, IEEE*, Bo Du, *Senior Member, IEEE*, Liangpei Zhang, *Fellow, IEEE*, Dongzhi Wang, and Huaxiang Ding

IN THE above article [1], in Fig. 12, the images in row 3–6 column (d) and row 6 column (e) were incorrect. They are the ground truth, rather than the experimental results. They have been replaced by the images for experimental results in the corrected figure, as shown in Fig. 1.

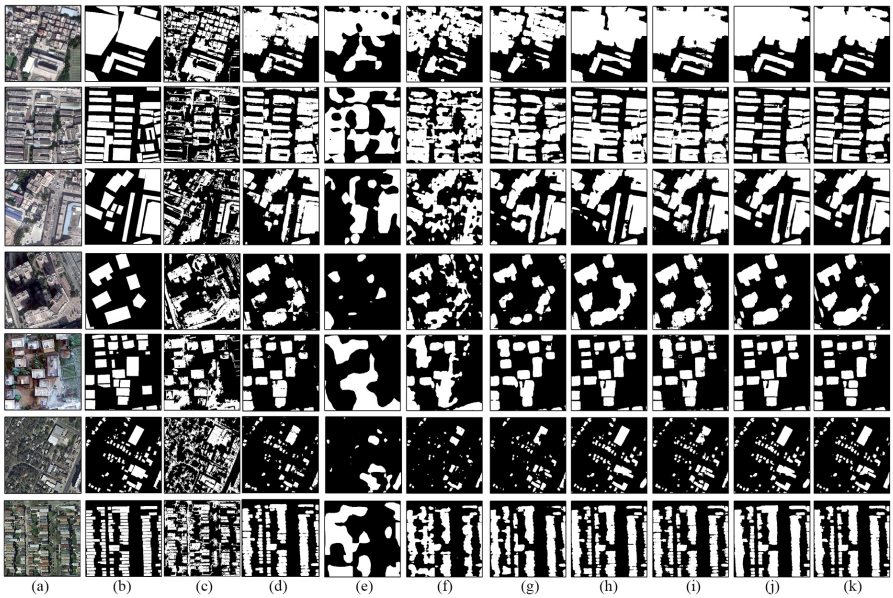

Fig. 1. Examples of the building extraction results by our proposed MTPA-Net, Single-MTPA-Net, and various SOTA models on the test data set. The first and second columns are aerial image and ground truth, respectively. Results of columns (c)–(k) are the building extraction results of MBI, SegNet, PSPNet, DeeplabV3+, Res-U-Net, MA-FCN, GRRNet, our proposed Single-MTPA-Net, and MTPA-Net, respectively. (a) Original image. (b) Ground truth. (c) MBI. (d) SegNet. (e) PSPNet. (f) Deeplab v3+. (g) Res-U-Net. (h) MA-FCN. (i) GRRNet. (j) Single-MTPA-Net. (k) MTPA-Net.
