# Corrections to "Adaptive Multitask Autoencoder-Based Hyperspectral Unmixing Exploiting Auxiliary Data via Graph Associations"

Jia Chen, *Member, IEEE*, Jun Li, *Fellow, IEEE*, and Paolo Gamba, *Fellow, IEEE*

IN THE above article [1], Tables I and II contained numerical errors. The corrections presented here do not affect the methodological framework or conclusions, but are given to ensure accurate reporting of experimental results.

The following tables replace the original Tables I and II in [1]:

TABLE I
